

Decentralized Rewarding Autonomous Chain
(D R A C)

White Paper Charter

Catalogue

- 1: What is centralization? What is unreasonable centralization?
- 2: What is decentralization and what needs to be solved?
- 3: The biggest enemy of decentralization at this stage is collectivism first and individualism second
- 4: Human society has been developing in the direction of decentralization and weak centralization
- 5: What needs to be resolved on the road to decentralization is human consciousness and consensus
- 6: We only admit that the underlying logic of distributed accounting is decentralized
- 7: The current chain and consensus mechanisms such as POW and POA are not decentralized
- 8: What is DRAC? What to fix?
- 9: DRAC's consensus mechanism POEW
- 10: Equal rights and distribution according to work do not conflict
- 11: The truth in the hands of a few does not equal equality, but equals the regression of mankind
- 12: Why remove blockchain anonymity?
- 13: What needs to be solved for PIZA wallet to eliminate anonymity?
- 14: LBA (Living Biometric Authentication) does not equal KYC
- 15: What does the DRAC's living biobank need to address? How to structure?
- 16: What is the logic behind the fact that more than half is correct?
- 17: Why did DRAC choose the faction game as an autonomous method?
- 18: Why does DRAC have a reward mechanism?
- 19: How DRACs work
- 20: What is the minimum community target, large community computing, compound community computing, cross-community computing, conditional community computing, and whole-community computing
- 21: Sub-project Half Pizza (DRAC) - Practice Report on Decentralized Reward-based Autonomous Community
- 22: Sub-project Teddy Doge and what role does it play on the DRAC chain?
- 23: DRAC's Token Economic Framework
- 24: DRAC algorithm and security solution
- 25: DRAC transmission
- 26: Node autonomy of DRAC
- 27: Roadmap for DRAC
- 28: Past practical experience and introduction of the DRAC team
- 29: DRAC currently only does three centralized things
- 30: Summary

Roda Map

2020 .8 The Project concept is budding officially named "Half Pizza"

2021.04 Complete the smart contract on BSC chain and add liquidity on PANCAKEswap

2021.06 Half Pizza BTC Game online

2021.08 NFT plate online

2021.10 PIZAswap online

2021.10 Officially named for DRAC chain

2022.01 Multi-chain DEXs of ETH online

2022.02 Cross-chain bridges of ETH online

2022.03 PIZA Cross-chain to ETH and add liquidity on UNIswap

2022.05 Build PIZA wallet: BUA-(Biometric Unique Address) and LAB-(Living Authentication Biobank).

2022.08 Build DRAC Chain
